

## Lullaby

Go to sleep now close my eyes  
The rain is softly falling  
Outside my window leaves are rustling  
In the autumn night

Oh I, I choose to believe  
In you before this life I leave

There's a sense of mystery  
A sense of destination  
A time when everything stood still  
A time of one creation

Oh I, I choose to believe  
In you before this life I leave

Music of the universe  
Play me one more song  
Let it haunt my dreams at night  
Be with me all day long

Oh I, I choose to believe  
In you before this life I leave

Go to sleep now close my eyes  
The rain is softly falling  
Outside my window leaves are rustling  
Tonight, you may come calling

Oh I, I choose to believe  
In you before this life I leave
