

## Soldier

I am your soldier  
Here in your war  
I am your son  
The one you waited for  
I signed up for the cause  
The picture shows my pride  
I remember how you cried  
For me  
When I became a soldier in your war  
I am a soldier in your war  
I am a soldier in your war

I am the child  
Who lived next door  
Who skinned his knees  
While playing war  
Sure you remember me  
I climbed your apple trees  
Afraid of honeybees  
And wasps  
But now I'm a soldier in your war  
Now I'm a soldier in your war  
Now I'm a soldier in your war

I am your soldier  
Cut and dried  
There's nothing you can do  
When I walk by to hide  
Look into my eyes  
And you will see  
War's deep dark history  
For I am a soldier in your war  
I am a soldier in your war  
I am a soldier in your war

I am your little boy  
All washed and clean  
I am your little boy  
Still in your dreams  
But I killed somebody  
Yesterday  
And the thought won't go away  
He was a soldier just like me  
He was a soldier in your war  
He was a soldier in your war  
He was a soldier in your war

I am your soldier  
Look what I've done  
You can't say these hands of mine  
Didn't hold your gun  
That they didn't hold your point of view  
I'm here because of you  
I am a soldier in your war  
I am a soldier in your war  
I am just a soldier in your war

I am your soldier  
I breathe the desert heat  
I fight this war alone  
Far from your city streets  
Far from your country  
Strong and free  
Far from your land of liberty  
Far from your place of happiness  
Far from the world  
That god has blessed  
I am a soldier in your war  
I am a soldier in your war  
I am a soldier in your war  
No more
