

## **This Town**

This town  
Looks better in the night  
This town  
By a soft firelight  
This love  
Keeps me hanging 'round  
This town  
This town

These feet  
Could have carried me away  
But your hands  
Were so gentle that I stayed  
And my life has been better pound for pound  
From your words that kept me in this town

You said  
That you loved me more than life  
You said  
If I loved you as my wife  
We'd find  
Some deep and common ground  
And we did  
Here in this town

In this town  
There's little we can do  
But we stayed  
Hard to the tried and true  
And we know  
That there's nothing to be found  
But our love  
Here in this town

So I'll go  
To Alberta in the fall  
And you'll stay  
To take care of it all  
It's just me  
No, my heart will not be bound  
For it will stay  
Here in this town

You said  
That you loved me more than life  
You said  
If I loved you as my wife  
We'd find  
Some deep and common ground  
And we did  
Here in this town

This town  
Looks better in the night  
This town  
By a soft firelight  
This love  
Keeps me hanging 'round  
This town  
This town
